Professional Summary

Aspiring Data Scientist with a solid foundation in computer science, data analysis, and project management. Seeking an opportunity to apply my skills and contribute to dynamic projects while adhering to professional standards and continuously evolving Education

National University of Computer & Emerging Science, B.S Computer Science   2026 – Ongoing

Relevant Coursework (Data Structure & Algorithms, Database Systems, Oops)

Skills

- **Programming Languages**: C++, Python, C#
- **Database Management**: Oracle, SQL
- **Data Analysis Tools**: Pandas, Matplotlib, Excel, Power BI
- **Software Development**: Object-Oriented Programming (OOP), Text File Handling
- **Data Science**: Data Cleaning, Data Visualization

Projects

Flex Management Project

- Managed student records using OOP concepts and text files.
- Implemented a system for efficient data storage and retrieval.

Vote Management Project

- Developed a vote management system using C# and Oracle database.
- Ensured data integrity and security through robust database management.

Data Cleaning Project

- Performed data cleaning on sample datasets.
- Enhanced data quality for accurate analysis and reporting

Hobbies and Interests

- Watching Season
- Informative posting(LinkedIn)
- Poetry
